AMERICAN REMEDY

It not only cures Scrofuls, and all diseases arising from

A. B. & D. SANDS, No. 141 William-st., N. Y.

DR. VELPEAU'S CANKERINE.—
THE GREATEST DISCOVERY OF THE AGE!
For the almost instantaneous cure of CANKER in its worst forms. Its also a sovereign cure for Sove Mouths and Throats, resulting from Scariatini and Typhus Fevers and unrivaled by anything yet known for Sove Nipples, Flesh Wounds, Fresh Burns of Scalds, old Soves and Soves of every kind. A positive cure for Bronchial Affections in its first stages. We will warrant it to extract the pain or smart from a Burn, however bad, in from one to two minutes. The same with Canker. All we ask is a trial, and we guarantee the result. It is perfectly afte to give to an infant. For sale by BURRILL & HUNTING, Sole Proprietors, No. 102 Nassauert., New York, room No. 4, and No. 6 Tremont-st, Boston. Price, 25 cents per bottle. For sale by all druggists. Sold by druggiets everywhere.

DRUGS, &c.-WILLIAM H. KINSLEY, No. 11 Gold-st., near Maiden-lane, New York, offers to RETAILERS AND MANUFACTURERS an assertment of reliable DRUGS, &c., or reasonable terms. CONSIGNMENTS of MEDICINES, CHEMICALS, &c., dis-

P E R U V I A N S Y R U P.—
This PREPARATION of tRON differs from all others, being a protected solution of the Protoxide, a combination never before obtained in a permanent form. It is widely known in Boaton and New England, where it is prescribed by the most prominent physicians, and is extensively used there by the most meelligent and respectable citizens. For Debility from any cause, Dyspepsia, and the various diseases arising from a deteriorated state of the blood, it has been found extremely efficacious. Pamphlets, giving a full description of the remedy, and the remarkable cures it has effected, may be obtained of the agents.

We subjoin an article from The Boston Daily Advertiser of June, 1850;
"PERUVIAN SYRUP - We feel justified in calling attention to "PERRYIAN SYSTER—We feel justified in calling attention to this medicine, after carefully weighing the evidence of its beneficent qualities. The value of iron to the system is well known, but it has heretofore been deemed impossible to maintain its protonide in solution in such a manner as to be of permanent value. We have now, however, the testimony of Dr. Hayes, our State Assayer, that a method of commination has been discovered which obvines this difficulty, and that this preparation of the protoxide of iron may replace all the exhetic combinations of the Materia Medica. It has already received the approbation of a veral physicians of high standing, while the propercions have many testimonials from respectable private citizens who have experienced its virtues. We believe that it is very efficacion for the care of a variety of diseases to which the human race is prone."

For sale by A. B. & D. SANDS & Co., No. 106 Fulton-st.

CROPS PROSPECTS.

IN CANADA WEST .- D. L. Groger of Cayuga, Halderman County, C. W., in a letter dated May 20, gives us the following account of crop prospe hat section:

that section:

"Crops in this section of the country bid fair to be abuncant. The principal crop raised here is Wheat, it being mostly a 'stiff clay soil,' and too lumpy for Corn, or other crops, cultivated with the hoe. Fer the last two or three years the Wheat crop has been last two or three years the wheat crop has been

troubled with the 'insect,' and not in consequence of impoverished lands, as the country is 'new,' and produces a vigorous growth.

"The Pea crop was formerly almost entirely destroyed by the 'pea bug,' but for the last two years the crop has been good.

"But little fruit is raised in this section, farmers having given but little attention to its culture. There

says:

"Many farmers early last Fall sold their entire crop to the contractors on the railroad, on thirty days credit, and have been this Spring obliged to sell their seed to pay taxes, and other necessary expenses, the consequence is that thousands of acres of the most fertile and productive improved lands lie idle for the want of seed. The people have got their eye-teeth just cut in the railroad swindle; not a man of my acquaintance would again vote for the loan bill. Many persons in consequence of bad crops last year, and hard times this, are obliged to sell their farms. There never was, or perhaps will be, so great inducements never was, or perhaps will be, so great inducement offered for Eastern farmers to get them cheap, an good farms as here now, it needs but improvements to make this the empire State of the West. Orang County dairy men could not do better than come here We have fine water, and sweet rolling suitable climate to compete even with Orange County in supplying New-York with the best of butter and at

educed rates."

In Iowa.—H. H. Brown of Wiscatts, Dallas

County, lowa: "The weather here is very fine. We have had no frost since the 22d of April. Vegetation is coming forward rapidly. Our Winter was quite moderate, with the exception of ten days."

IN PENNSYVANIA .- We have the following informa-

tion from a farmer in Adams County, Fean..

"Wheat look very well, and is very foward; some of the earlier varieties already shooting heads. Oats have come up well, and are growing rapidly. Corn has been planted in good time, and is coming up well. Fruit, except peaches (the loss of which will not amount to much, as there are but few trees), is uninjured, and provisions are in abundant crop. The tion from a farmer in Adams County, Penn.: amount to much, as there are but lew trees, is drin-jured, and provisions are in abundant crop. The weather has been wet and warm, rather too much so for the wheat, but the very thing for grass and Spring crops. Altogether the prospect for an abundant crop is better than it has been before in years."

IN NEW-JERSEY .- A letter from Quakertown, N. J.,

May 23, has this paragraph: "There is a good prospect of apples, pears and cherries, but not of peaches. Wheat looks fine, grace thin, being killed last Summer and this Winter, which will make the hay crop light."

IN OHIO .- A correspondent of The Ohio Farmer ays the prospect of a good crop of peaches, in Fairfield County, never was better than it is now. Another says of Guernsey County: We have a proc-

pect of sufficient fruit for our own use. IN KENTUCKY.-The report is that crops never promised better. Rye was in full head May 15.

Is OUR OWN VICINITY.-The season here is unusually forward. Apple blossoms are all off, and the young apples hang as thick as the leaves. Cherries, too, are equally abundant. Strawberries, both wild and cultivated, are beyond precedent in appearance; very fine ones are already in market-price 40 cents a small quart, hulls on. Other fruits, peaches excepted, bid us hope and believe they will be abundant. The gardens generally never looked better the last week in May than they do now. We have had the very best of weather for plowing and planting, and plenty of moisture and warmth. Many fields of corn are up so as to mark the rows, and potatoes have been had the first time on many farms. Stiff, people are planting corn, and will till the 1st of June, and the area of planted land never has been larger, probably, than this season; and certainly the country never had greater occasion for a good crop of all kinds of grain, and food plants generally. Rye is already as high as a tall man's head, and its heads promise a great yield of food. Our pastures come forward unusually early, and that has greatly in-creased our stock of butter. Some clover fields are in full bloom, and the plants big enough for the scythe. The forest trees appear as thick as at Mid-summer, which indicates the forwardness of the season, which altogether is most unusually promising.

PEACHES IN MARYLAND .- A gentleman just returned from a tour of some two weeks upon the casters shore of Maryland, says the peach crop there is quite promising. Some large orchards will produce as well as they have any season of late years, and proprietors are already making arrangements to send the product to the New-York market; so that all who product to the New-York market; so that all who can afford to pay the high prices will be able to eat peaches next Fall. The peach crop in Delaware is quite light, and next to nothing in New-Jersey.

BOARDERS and Invalids desiring excellent D BOARD, a pleasant House, in the most devirable portion of the city, and the very best of MEDICAL ATTENTION, should apply without delay at the Hygiene institute, No. 428 4th ave. New York. J. Silas Brown, M. D., many years Physician of the Hygiene Hospital, Boston, Mass.

DR. TRALL'S WATER-CURE is located but one door from St. John's Park, at No. 15 Laightest. Good BOARD can be obtained from \$5 to \$7 per week. Board with treatment, from \$7 to \$19 50 per week. R. T. TRALL, M. D., and D. A. GORTON, M. D., Physicians.
